

FASSI GROUP

## Cranab AB becomes importer for Metsatek SIA

FASSI GROUP

FASSI GROUP

Cranab's products, cranes and crane-tip equipment for professional mechanised forestry have been designed, manufactured and sold since the early 60s.

In addition to the Swedish home market, our products are sold in numerous countries around the world.

Our long experience and the demand for reliable products has also resulted in business opportunities within recycling and salvage handling.

METSATEK is a leader in the Baltic automotive industry.

The company has been producing and installing machinery for timber transportation since 1993. Since 2007, METSATEK continues dynamic development, implementing ambitious projects on a national and international scale.

Our equipped cars work in Latvia, Lithuania, Estonia, Belarus, Russia, Poland, Czech Republic, Finland and other EU countries. Timber truck bodies manufactured by METSATEK are installed on Volvo, Scania and Renault, etc.

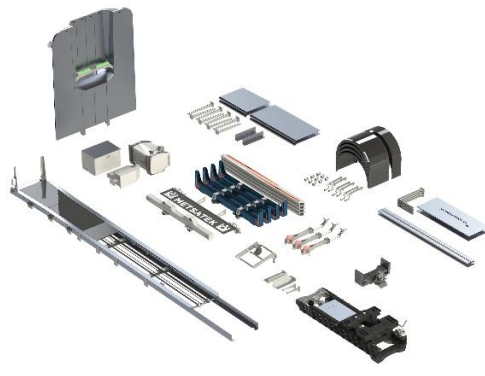

# Metsatek - first choice when purchasing a timber truck
